ADDITIONAL INFORMATION SUPPORTING NJD (e.g., paragraph 1 – site conditions; paragraphs 2-3 – rationale used to determine NJD, including information reviewed to assess potential navigation or interstate commerce connections; and paragraph 4 – site information on waters of the U.S. occurring onsite): Onsite information was provided by NRCS including site photographs. Based on all reference information (Quad. map, NRCS Scott County, Kansas Soil Survey, Scott County Road Map), including statement by NRCS this stream channel vanishes without connecting to or establishing any hydrologic connection to waters of the U.S. Based on this information a determination was made that this stream is isolated.
